Hiking the Världarvsleden

Världsarvsleden is a 100 km long hiking trail in Nordingrå, in the centre of the World Heritage Höga Kusten. The landscape characterized by 10,000 years of land uplift, following the last Ice Age and by its deep inlets and valleys, lakes and steep hillsides. The trail passes several nature reserves, 29 villages and fishing villages and many sites of great natural beauty.

The trail Världsarvsleden consists of 14 sections, as described on the information boards placed along the route. Additional information on the terrain and the surface of the trail, food & refreshments, etc. is available per section.

Customize your adventure

Make your adventure an unforgettable experience with our extra options. Before you know it, you want to stay longer. Your choices are: prepare a delicious meal over open fire during an outdoor cooking workshop, a beer tasting of 7 local beers, in winter you can watch the northern lights

from the sea, an evening in the sauna or feast during a chocolate workshop.

Would you like to be accompanied by a guide during your hike or prepare your lunch on a campfire? No problem, we can also arrange that for you.

My best adventure ever!

At 10 o'clock we were ready for departure. There was a fresh layer of snow and we would really need the snowshoes. With the help of the guide we went out over the Världarvsleden, forest on one side, a fantastic view over the sea on the other. It took some time to get used to the snowshoes but after 30 minutes you get

used to them and can go wherever you want. The lunch was fantastic. Coffee was made on a lovely hot fire, sausages roasted, and vegetables grilled. With a well-filled stomach on the way back. Marvellously tired we return to Skutskepparn, just in time for dinner.
